SOLID WASTE DISPOSAL COMPANIES END OF YEAR PERMIT PROCESS

Chapter 109 of the Code of Fairfax County currently requires all disposal permits to end on June 30 annually. New Fiscal Year 2007 permits must be on vehicles before they can use County disposal facilities on July 1, 2006.

This advisory asks the cooperation of all disposal companies to complete your FY2007 permits as soon as possible. This information and the permit application were sent to all companies in early May.

Should a disposal company not have its permit application completed by July 1, 2006, the company will not be able to dispose at County facilities until such time as the FY2007 Permit process is completed.

Should you have questions concerning this advisory, please contact me or Linda Boone at 703-324-5230.
